

## Leisure

Bristol is one of the UK's greatest centres for culture, with a long maritime history stretching back to the 11th century. Bristol is home to many famous landmarks and has long been synonymous with art and music with a wide variety of events all year round including concerts, gallery openings, street art and theatre productions. The city also boasts a lively social scene, with many traditional pubs, and trendy cafés and bars located throughout the city. Every week the school hosts two evening activities and one weekend activity. Take a look below to see samples of our activities.
