

OISE London - Quatorial Lesson

Quatorial lessons consist of a maximum of 4 students and are divided into 2 parts:
Comprehension and Expression
Accuracy of Grammar and Vocabulary

Quatorial lessons offer a dynamic international environment for students to develop their spoken fluency, confidence and comprehension, as well as improving grammatical accuracy. The small class sizes ensure that each student receives the attention they need to progress, and the range of materials provide an engaging platform for improvement. The overall aim is to turn the participant into an articulate English speaker and presenter.

Each class has a timetabled 15 minutes pre-lesson session prior to the teacher-led section. This encourages learner autonomy, promotes maximum teacher-student contact time and encouragement of learner confidence.

The Quatorial lessons are structured around the student's individual learning goals with groups being created of students with similar objectives, ages and knowledge of English but different nationalities for cultural exchange.

News Review	15 minutes
Quatorial Lesson: Comprehension & expression	15 minutes preparation 1.5 hour lesson
Quatorial Lesson : Accuracy	15 minutes preparation 1 hour lesson
Quatorial: Project Seminar	30 minutes
Critical Analysis Workshop	1 hour lesson
Spoken Assertiveness Workshop	1 hour lesson

“Lessons are useful... It is an informal and friendly, but professional way of studying.”

Giulio Guidorizzi, Professor, Italy

Focus on your aims

Quatorial lessons can focus on any chosen area of English. OISE London offers expertise in the following areas:

Professional English for learners using English in a Business context daily. Specialist subjects include: Finance, Law, Human Resources, Commerce, Marketing, Tourism, Medicine, Architecture.

Exam Preparation for exam success. We have expert teachers to help students prepare for the following exams: IELTS, TOEIC, TOEFL, CAE, FCE and BULATS.

English for Universal Use and everyday situations. Students will improve their English skills in all areas with the focus on communicative ability, reading writing, speaking and listening skills.

Academic English and Career Development for graduates and students. Developing accuracy and fluency, expanding vocabulary and building confidence in spoken ability for exam success at university, business school and college.

Class aims and objectives

- To achieve rapid progress through well-structured and challenging classes
- To make each participant an articulate English speaker and presenter
- Controlled practice of reading, writing, listening, and speaking to improve all areas of student's English knowledge
- To read and listen to business articles and news reports encountered by native speakers with full comprehension
- To practise challenging sentence structures and vocabulary to be able to communicate with other English speakers with confidence
