

OISE Oxford - The Tutorial Programme

The Tutorial lesson, a teaching tradition of Oxford University, is one of the most effective methods of language learning. Our Tutorial programmes are conducted by means of one-to-one tuition thus allowing the course to be fully adapted to the precise level and needs of each participant. Our Tutorial courses offer 15, 20, 25 or 30 hours of one-to-one tuition per week.

- 3 – 6 hours of 1:1 tuition per day
- Highly experienced tutors
- 100% adapted to the needs of the student
- Perfect for exam preparation
- English for specific professional fields
- Students learn at their own pace
- Maximum speaking practice

The Personal Language Audit

A language assessment carried out by the Academic Manager and the tutors at the beginning of each course determines the precise level, needs and objectives of the participant. This forms the basis of the student's personal learning programme.

Tutor Selection

Our Academic Manager carefully pairs students with the tutors best suited to meet their academic needs. Each participant is assigned a team of tutors rather than just one tutor to expose them to a variety of teaching approaches as well as different personalities, voices and accents which help to sustain and stimulate concentration.

Specialisations

Tutorial tuition allows for specialisation in a comprehensive range of specific professional areas, such as law, engineering, medicine, media, marketing and many more. These lessons are taught by a tutor with expertise in the student's particular field.

Examination preparation

Students wishing to take an official exam are exposed to exam requirements with active practice on past papers under timed conditions to foster familiarity with the exam. Our tutors have extensive experience in preparing students for a wide range of exams, including IELTS, BULATS, TOEFL, TOEIC, Abitur and many others.
