

OISE London - The Quatorial Programme

The Quatorial Programme embraces the varying techniques and approaches required to improve fluency and communication in English. The classes are designed to develop language accuracy, allow the participant to overcome their inhibitions and to use English eloquently in any situation.

Quatorial lessons have a maximum class size of 4 to ensure each student receives individual attention from the teacher and interaction with like-minded colleagues. Our expert teaching staff design the course content to focus on each learner's needs and they are structured to encourage rapid progress by our students.

Tutorial lessons are part of the Quatorial Programme for one-to-one sessions from one of our academic team.
