Groups are designed with a maximum of 4 students, equivalent levels and ages. Programs and contents are reviewed and adapted to each group according to student needs and objectives. OISE courses demand a strong involvement and personal work. They are designed for ambitious students. The pedagogy we use in the program is use and re-use French language on different situations around a theme. Each day, a theme is worked on, from different angles, with different means: lessons, informal lunch, cultural visit, relevant activity or sport, etc.

On Friday, oral skills lessons are focused on an oral presentation. Students are filmed, teachers give feedback afterwards. The theme is chosen by the student, consistent with the day topic: what I know about architecture, how this works in my country, the History of my city, *etc.* The other Friday theme will be a slide show of the photos taken by students during the week. Each of them is responsible for the design and the text which has to emphasize on personal feelings, impressions, preferences, *etc.*

(If possible students will come with their own camera or telephone to take pictures.)
