

OISE Oxford 2015

Tutorial Programme

The Tutorial lesson, a teaching tradition of Oxford University is one of the most effective methods of language learning

Maximum effort and concentration

The entire course is conducted by means of individual tuition thus allowing the course to be adapted to the precise level and needs of each participant.

Tutorial tuition ensures that:

- *The tutor devotes 100% attention to the student*
- *Teaching methods are adapted to the learning style, and to the pace at which the student can successfully learn*
- *Individual weaknesses and specific needs of the student are addressed*
- *The course content is tailored to the student's study or career objectives*
- *Inhibited or reserved students receive maximum talking practice*
- *No time is wasted covering points already known to the student or of no relevance*

Examination skills

Students wishing to take an official exam are exposed to exam requirements with active practice on past papers under timed conditions to foster familiarity with the exam.
