

Intensive Spanish: The Quatorial Programme

Group study at OISE Madrid

The Quatorial programme provides 31 hours of group training divided between 15 hours of lessons with just 4 students per group, and 16 hours with just 8 students of press review sessions, spoken performance workshops and guided self-study. The small group format is integral to OISE Madrid's communicative approach to learning which involves giving students the maximum possible contact time with the language.

Quatorial students can complement their group programme with individual tutorial lessons. This is perfect for students who enjoy a group dynamic but also need to focus on weak points or areas of special interest.

Quatorial Lesson

The Quatorial programme

- Small groups for maximum language contact
- A full intensive day of study
- Courses start every Monday of the year
- Programme of social activities
- Comfortable school environment with wifi access
- Specialist native tutors
- Focus on developing communicative skills

A complete day of study

The Quatorial programme provides a full day of learning which combines a focused study of grammar and vocabulary with speaking and listening work designed to make a genuine difference to the student's capacity to communicate in Spanish.

The Quatorial day involves classroom time, project work and workshop activities to provide a range of learning contexts which makes the learning process as varied and dynamic as possible.
