## The Personal Competency Programme™ with 10 Tutorials

---

At OISE Oxford, learning takes place in situations which replicate as closely as possible the real-world contexts in which the student has to perform, honing their cognitive competences in English.

The Personal Competency Programme™:

- eliminates the divide between the classroom and the real world
- delivers intellectually challenging content
- focuses on specific learner contexts

This approach ensures that learning is relevant, meaningful and perfectly matched to each student's goals.
