

The Integrated Tutorial Programme

At OISE Oxford, learning takes place in situations which replicate as closely as possible the real-world contexts in which the student has to perform, honing their cognitive competences in English.

The Integrated Tutorial programme combines one-to-one Tutorials with group workshops, offering students the benefit of interacting in English with a group, alongside intensive individual tuition.

This approach ensures that learning is relevant, meaningful and perfectly matched to each student's goals.

Course Components

8:45 - 9:00 News Review

Students develop comprehension skills and cultural understanding by focusing on current news stories and the language and influence of the press.

09:00 - 10:30 Tutorial

In the best tradition of the University tutorial, students present their work to the tutor, who helps them identify areas for improvement and paths for further development.

10:45 - 11:45 Skills Development

Quatorial class in which participants master universal skills such as complex problem solving, people management, decision making and negotiation in a life-like environment through role-plays, simulations and scenarios.

11:45 – 12:45 Culture in Context

Learners develop the ability to think in English and broaden their understanding of the nuances of multicultural environments, enabling them to participate actively in social and professional interactions and use contextually appropriate cultural references.

14:00 – 15:00 Tutorial

The tutor provides individual support to manage the student's learning and helps them achieve their goals, tailoring the lessons to their individual needs.

15:15 - 16:15 Project Seminar

Learners gain confidence in their public speaking skills while also using language and terminology of direct relevance to their needs. Each student selects a topic for an individual project based on their needs and interests.

16:30 – 17:45 Tutorial

Tailored, intensive, one-to-one lessons.

The Integrated Tutorial Programme™ includes a total of 33.5 hours of tuition per week, divided into: 17.5 Tutorial hours (1:1), 5 hours of Quatorial sessions (4:1), 5 hours of Octorial workshops (8:1), 5 hours of Project Seminar (4:1) and 1 hour of Plenary sessions.
