

The Sherbourne Priors Education

(7-13 years)

Sherbourne Priors is more than just a language school that supports and develops students with English as a second language. It offers stepping stones for students wanting to eventually enrol into a UK boarding school. It can offer programmes to support students' specific needs; understanding academic subjects' terminology in English, preparation for entrance school tests, confidence in presentation skills, mastering of conversational English and much more.

A stay at Sherbourne Priors is an inspirational experience which will have a striking influence on the child's early international personality. Sherbourne Priors, recognising that the safety and well-being of the children in its care is of the utmost importance, provides 24-hour supervision and a ratio of 1 adult to every 4 students. All teaching staff live on campus and no child is allowed out at any time unless accompanied by an adult.

The programme

Sherbourne Priors focuses on the students' academic, social and emotional well-being. The programme enables the individual to establish personal values as a foundation upon which international mindedness will develop and flourish. In addition to improving their English students will develop good citizenship, organisational skills, presentational skills, and an increased sense of responsibility for their belongings, the environment and themselves.

- **English language lessons**

Ranging from Elementary to Advanced, the lessons focus on the four skills of speaking, listening, reading and writing, using a full immersion method. The learning continues outside the classroom and conversational English is encouraged at all times, especially round the dinner table during mealtimes. Each week students participate in tests to monitor the progress made. Sherbourne tests include Cambridge Starters, Movers and Flyers. For the older students 12 and 13 years preparation for the Cambridge KET and PET are also available if requested.

- **Subject lessons**

Core subjects are taught in English for academic purposes, such as Maths, Science, History and Geography. Once requested, students can have lessons on subjects which they need to improve on.

- **Workshops**

The afternoon and evening workshops consist of sports, games and activities that encourage fluency and the spontaneous use of English. These include team building exercises that requires cooperation in English to complete tasks, team games that encourage sportsmanship, and arts and craft to inspire creativity and self expression.

- **Project**

Each week students work collaboratively on a project that is subject based, e.g. Science, Geography, History, Maths. This culminates in a Friday presentation in front of the school.

- **Educational excursion**

A mid week field trip linked to their project, such as Warwick Castle, Think Tank, Butterfly Farm, Hatton World. During these visits the students are able to practise their English skills in realistic scenarios using the British environment and people.
