

## OISE Oxford Admissions Policy 2019

All applications to OISE Oxford are dealt with on a case by case basis.

OISE Oxford can accept students with any level of English. Applications are accepted via post, email, or in person. All students must complete an application form.

We also ask that any known medical conditions are disclosed as well as any learning or physical disabilities.

Students under 18 must also provide a parental consent form and follow the school's under-18 procedures. We only accept students over the age of 16.

The school may refuse to accept a student under the age of 18 if we feel we cannot meet the welfare needs of that student.

The school may refuse to accept a student if we feel that we cannot meet the needs of the student on medical grounds. However, if we are unable to provide a course we will try to offer suggestions for other more suitable schools.

The school may refuse to accept a student based on the academic needs of the student if we feel we cannot meet those needs. For example the student is an absolute beginner or the level is higher than the current levels of classes running in the school.

Information regarding nationality and visa status is required from the student. The school may refuse to accept a student, without reservation, if there is a suspicion that there is any risk that the student will not comply with the requirements of their visa status or pose a risk to the integrity of the UK Border in line with our HTS procedures. The school may refuse an application, without reservation, if there is a suspicion that documents presented to support a visa application are not bona fide.

All financial sponsored students are required to send proof of sponsorship for an English Language Course before we will accept them.

Any students without financial sponsorship are required to pay a deposit which is dependent on type of visa required and length of course. Full payment of all fees is due before the commencement of any course at OISE Oxford.
