ACADEMIC EXPERIENCE

Key points

Students are trained to gain the experience and acquire the skills necessary to use the language at a high level. Teachers help students to achieve to the maximum of their potential, and set milestones and goals for each student, with constant evaluation. This sets the pace for each learner to surpass their academic expectations.

Individual tuition provides the participant with a learning experience tailored to their precise needs. The student is assigned a range of tutors throughout the day, who adapt the style and pace of their pedagogical approach to ensure that the individual before them can make the maximum possible progress.

The course exposes learners to a range of authentic content from different academic or professional sources, piquing their intellectual curiosity alongside exposing them to different styles and registers, as well as new vocabulary and structures. Students debate, discuss and analyse these sources, leading to increased confidence and fluency alongside enhanced critical thinking skills.

The TOEIC exam includes:

Listening and Reading tests.

Speaking and Writing tests.

OBJECTIVES OF THE STUDY

Course objective

To enable the student to achieve their desired score in the exam

Tutored English for exam preparation

15, 20 or 25 hours per week.

Intensive for accelerated progress, this method coaches the learner and creates strategies to identify obstacles and realise the personal ambitions of the learner.

- Lessons in the core skills equip the student with the necessary skills in grammar, comprehension and accuracy.
- Lesson content is academically challenging. Students interact with new ideas and approaches through the use of authentic materials from a range of subjects. Students are exposed to subjects such as literature, history and economics and acquire mastery of the language through broadening their knowledge of these topics.
- The discussion of current international affairs and topical issues allows the student to develop skills in speaking and expression in tandem with widening their worldview.
- Homework tasks are set daily to allow learners to reflect on and consolidate what they have learned in the day, as well as prepare for the next day.

EXPECTATIONS

Expected outcomes

Increased mastery of the language: students become bold and confident users of English whilst speaking with accuracy and fluency.

The student gains the strategies to perform well in all parts of the test.

ACCOMMODATION

Half-board homestay

Staying in a homestay gives participants the chance to be fully immersed into the local culture of the destination, whilst also being able to practise the language in a relaxed and natural setting. Many homestays have been welcoming our students into their homes for many years, offering their hospitality and expanding our students cultural horizons. Homestay arrivals are on the Sunday before the course begins, and departures are on the Saturday after the course ends.
