

Open up a bilingual horizon

TM

ACADEMIC EXPERIENCE

A unique learning experience

The pedagogy used is based on proximity between students and teachers. The small class sizes allow children to benefit from individual attention and to build their confidence.

OBJECTIVES

Immersion in a multilingual environment

The course aims to strengthen English language skills in everyday activities and to develop children's critical thinking skills.

Open up to English

15 hours of classroom lessons per week.

Small class sizes guarantee individual attention from teachers.

For young children aged 7-11 years.

Teachers invite students to use their potential to the fullest, they define objectives for each child and evaluate regularly, with kindness.

- Students study the codes of the language in order to gain an instinctive understanding of them
- The program stimulates children's intellectual curiosity by drawing on themes covered at school in order to integrate language learning into a concrete context
- Children are introduced to the pleasure of discovery by working in small groups on project work
- The workshops encourage fluid use of the language through sports, cultural and artistic activities: theatre, circus, dance, sport, crafts, young talent competitions

EXPECTATIONS

The benefits of the stay

This stay promotes understanding and communication in English, it triggers a real appetite for practising the language.

ACCOMMODATION

LOCATION

A stay suitable for young learners

A programme designed in an environment perfectly suited to young people where everything is designed to ensure the well-being of young guests.

CULTURE

Activities

Film evenings, barbecues, card games, musical quizzes and treasure hunts provide a pleasant end to the day.

One afternoon and one day per week are dedicated to an excursion during which children put their new knowledge to use outside of the classroom. They can therefore use language in a concrete way.
